Remuneration Policy and Practices

Overview

As an SNI MIFIDPRU investment firm, Haven Cove is subject to the basic requirements of the MIFIDPRU Remuneration code. Haven Cove, as an alternatives investment fund manager, is also classified as a collective portfolio management investment firm, and as such, is also subject to the AIFM Remuneration Code. The purpose of the requirements on remuneration are to:

- Promote effective risk management in the long-term interests of the Firm and its clients;
- Ensure alignment between risk and individual reward;
- Support positive behaviours and healthy firm cultures; and
- Discourage behaviours that can lead to misconduct and poor customer outcomes.

The objective of Haven Cove's remuneration policies and practices are to establish, implement and maintain a culture that is consistent with, and promotes, sound and effective risk management and does not encourage risk-taking which is inconsistent with the risk profile of the Firm and the services that it provides to its clients.

In addition, Haven Cove recognises that remuneration is a key component in how the Firm attracts, motivates and retains quality staff and sustains consistently high levels of performance, productivity and results. As such, the Firm's remuneration philosophy is also grounded in the belief that its people are the most important asset and greatest competitive advantage.

Haven Cove is committed to excellence, teamwork, ethical behaviour and the pursuit of exceptional outcomes for its clients. From a remuneration perspective, this means that performance is determined through the assessment of various factors that relate to these values, and by making considered and informed decisions that reward effort, attitude and results.

Characteristics of the remuneration policy and practices

Remuneration at Haven Cove is made up of fixed and variable components. The fixed component is set in line with market competitiveness at a level to attract and retain skilled staff. Variable remuneration are paid on a discretionary basis and take into consideration the Firm's financial performance and the financial and non-financial performance of the individual in contributing to the Firm's success. All staff members are eligible to receive variable remuneration.

The below summarises the financial and non-financial criteria of performance used across the Firm in assessing the level of variable remuneration to be paid:

Financial Performance Criteria

- Overall financial performance and sufficient profit for distribution
- Personal performance

Non-Financial Performance Criteria

- Alignment with the Firm's cultural values

The fixed and variable components of remuneration are appropriately balanced: the fixed component represents a sufficiently high proportion of the total remuneration to enable the operation of a fully flexible policy on variable remuneration. This allows for the possibility of paying no variable remuneration component, which the Firm would do in certain situations, such as where the Firm's profitability performance is constrained, or where there is a risk that the Firm may not be able to meet its capital or liquidity regulatory requirements.

Governance and Oversight

The Management Team is responsible for setting and overseeing the implementation of Haven Cove's remuneration policy and practices. In order to fulfil its responsibilities, the Management Team:

- Prepares decisions regarding remuneration, including decisions which have implications for the risk and risk management of the Firm;
- Ensures that the remuneration policy and practices take into account the public interest and the long-term interests of shareholders, investors and other stakeholders in the Firm; and
